# SUMMER CLOUD GREENHOUSE CLEANER

Directions for use

### To clean greenhouse glass

Apply to a dry surface on a wind free day. Spray evenly to wet the surface. Brush off dirt, algae and lichen before rinsing. Allow surfaces to dry before applying a sunshade. For outdoor use only. 750 ml covers approximately 6 square metres.

### To remove greenhouse sunshade at end of season

Spray evenly until the area is thoroughly wetted. Scrub the glass with brush or similar equipment and rinse off loosened paint to leave a bright clean surface.

### Precautions

This material and its container must be disposed of in a safe way. **WASH HANDS AND EXPOSED SKIN** before meals and after use. **KEEP IN A SAFE PLACE.**

Store upright. Protect from frost.
