FESCUE

Golf greens, tees, fairways, bowling greens, roughs

- 60% slender creeping red fescue & 40% Chewings red fescue
- Features three new top-rated cultivars in 2024
- Ideal for free-draining, sandy links greens
- Superb all-round disease tolerance, particularly Dollar Spot and Microdochium

MIXTURE:

60% Slender creeping red fescue
40% Chewings red fescue

USAGE:

Construction and overseeding of free-draining fine-turf areas. Golf and bowling greens; tees and fairways.

FEATURES & BENEFITS:

The market-leading and top-performing Fescue blend for overseeding and construction of free-draining fine turf.

The 2024 mixture contains five cultivars, three of which are new to the market: *Barnoustie*, *Barquess* and *Dancing*.

Barnoustie and *Barquess*, with BSPB mean scores in excess of 8 promise new levels of quality for slender creeping red fescue, and *Dancing* enters the Chewings table ranked #3. Aably supported by #2-ranked *Barlineus* and the old favourite *Barcrown* (still ranked #5), this mix has an unparalleled total mean score of 7.88.

Barquess, with its pale green colour offers particularly fast early season growth for a slender and *Barcrown's* very high degree of Dollar Spot tolerance is also worth noting.

Specifications

Sowing rate	25-35g m ²
Overseeding rate	15-25g per m ²

Golf

Greenkeepers, Course Managers and Golf Course Superintendents rely on the Barenbrug Sport grass seed range designed for golf courses.

- Greens
- Tees
- Fairways
- Roughs
- Bowling Greens

Characteristics

Speed of Establishment

Wear Tolerance

Close-mowing tolerance

Fineness of leaf

Speed of growth

Dark green colour

Shoot density

Low maintenance

Sowing depth	8-12mm
Mowing height	down to 4mm
Pack size	20kg

Composition

30% Barquess	Slender creeping red fescue
25% Barlineus	Chewings red fescue
20% Barcrown	Slender creeping red fescue
15% Dancing	Chewings red fescue
10% Barnoustie	Slender creeping red fescue
